Lançamentos da Comunidade de Desenvolvedores de Junho de 2021

Olá Desenvolvedores!

Este é um informativo de como melhoramos a Comunidade de Desenvolvedores no mês de Junho de 2021.

As melhorias são:

- Resumo Mensal melhorado
- Um design totalmente novo para as Mensagens Diretas (novas funcionalidades incluídas)

~~Vejam os detalhes abaixo.~~
Resumo Mensal melhorado

Números em todos os lugares!

Nós coletamos algumas estatísticas básicas de acesso à Comunidade de Desenvolvedores e adicionamos algumas delas no Resumo Mensal. Agora você poderá acompanhá-las e ver facilmente a atividade e crescimento de nossa Comunidade.

Novo design para as Mensagens Diretas

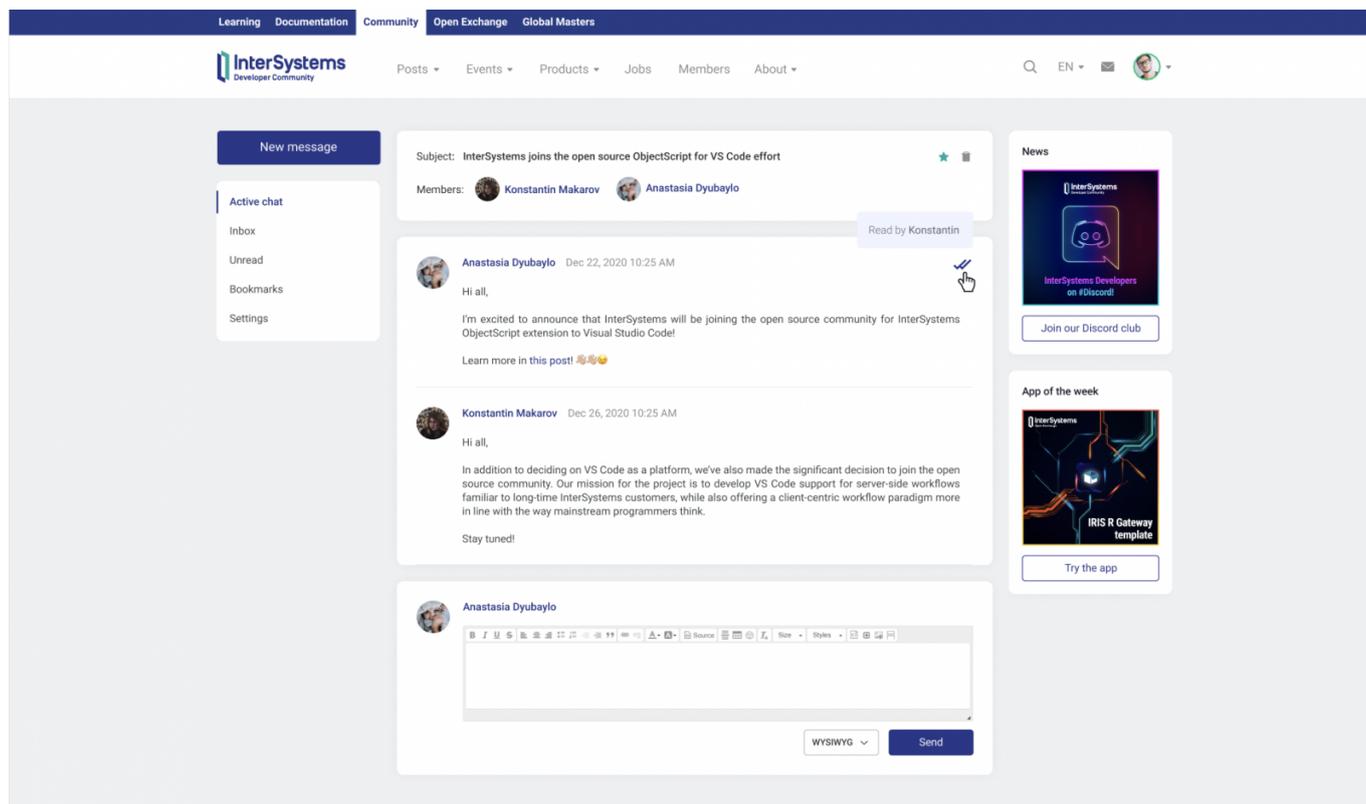

Conheçam uma versão completamente nova e melhorada das Mensagens Diretas (DM)!

Apenas imagine uma ferramenta de mensagens completa dentro da Comunidade – nossos membros agora podem, de forma simples, se comunicar entre si através das Mensagens Diretas (DM), criar conversas para vários membros, bater papo sobre assuntos específicos, etc.

The screenshot displays the InterSystems Developer Community interface. At the top, there is a navigation bar with links for Learning, Documentation, Community, Open Exchange, and Global Masters. Below this, the InterSystems logo and navigation links (Posts, Events, Products, Jobs, Members, About) are visible. A search bar and user profile icon are also present. The main content area shows a 'New message' button and a sidebar with 'Inbox', 'Unread', 'Bookmarks', and 'Settings'. The central part of the screen is a list of messages with columns for checkboxes, sender names, subject lines, and dates. A star icon is visible next to the message from Evgeny Shvarov dated May 15. To the right, there are two promotional cards: 'News' for InterSystems Developers on #Discord! and 'App of the week' for IRIS R Gateway template.

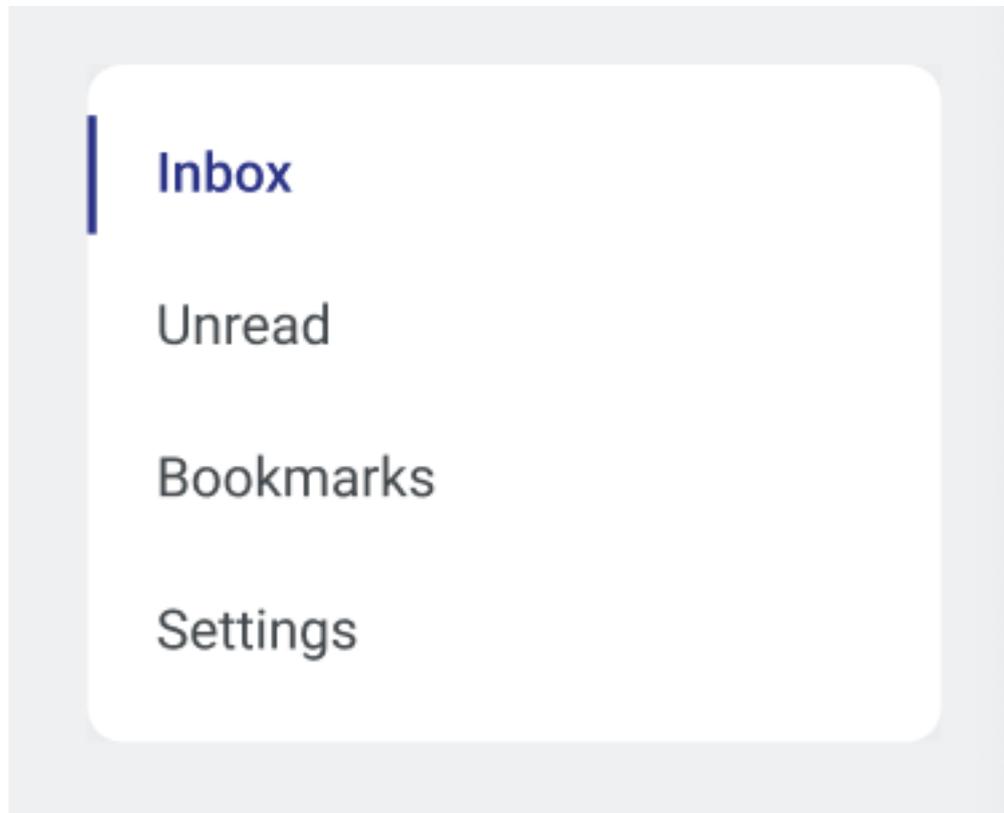

<input type="checkbox"/>	Sender	Subject	Date

<input type="checkbox"/>	Irina Podmazko	Developer Community Release	Jan 01

Crie seu bate papo pessoal ou em grupo, adicione assuntos, saiba quantas pessoas viram suas mensagens e mais....

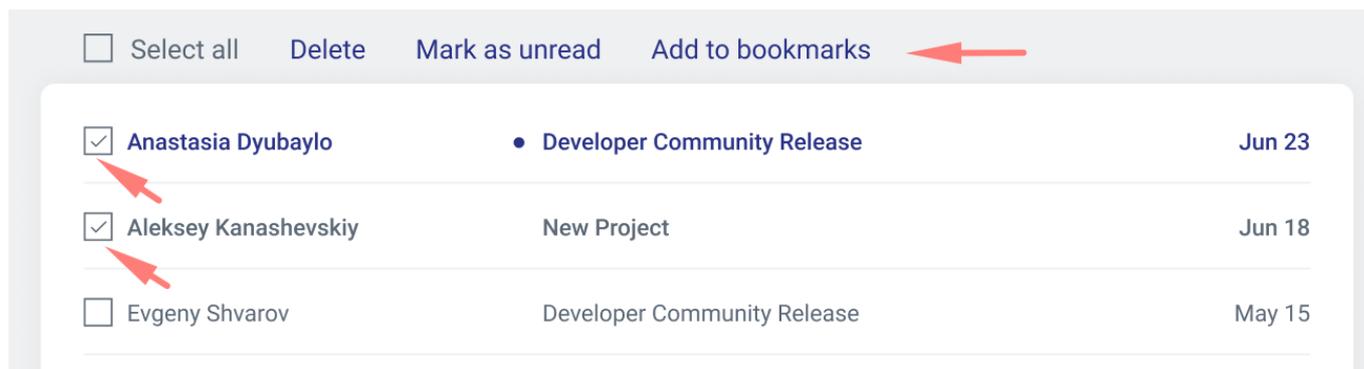

Quais as novidades?

Adicionamos um menu lateral com várias abas para facilitar a navegação na DM:

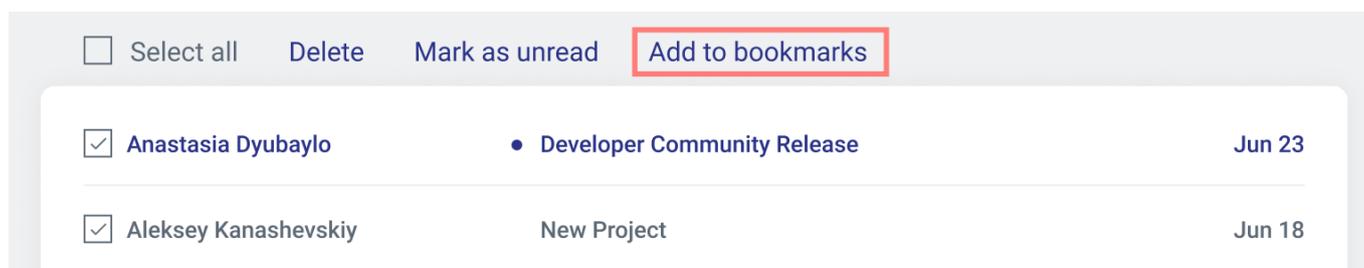

Para utilizar a nova funcionalidade, selecione um/múltiplos/todas as mensagens. As novas funcionalidades aparecerão no topo:

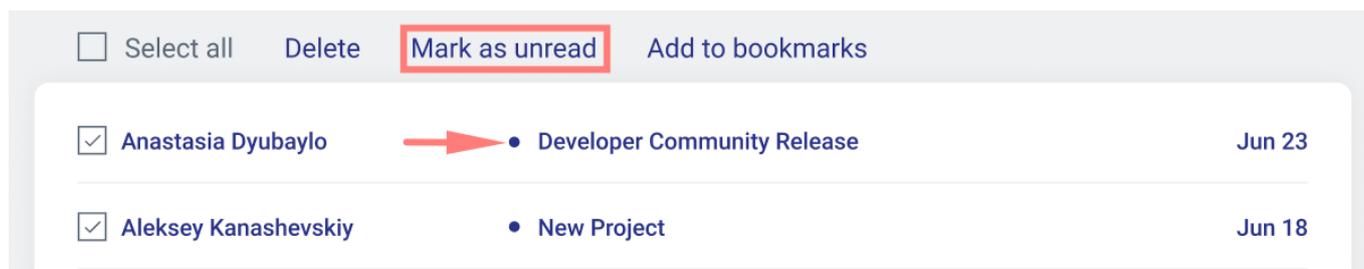

1. Você pode adicionar mensagens ao seu favoritos utilizando uma das seguintes formas:

- Clicando no ícone de estrela quando passando com o cursor sobre o assunto da mensagem

2. Você também pode transformar qualquer mensagem para não lida, de forma a poder acessá-la futuramente e respondê-la. Para isso, apenas selecione as mensagens que você quer e clique no botão "Marcar como não lido".

Todas as mensagens novas agora são marcadas com um ponto azul.

Na versão para dispositivos móveis nós desenvolvemos um design moderno e leve.

The screenshot displays the InterSystems Developer Community interface. At the top, there are navigation tabs for Learning, Documentation, Community, Open Exchange, and Global. The InterSystems Developer Community logo is prominently displayed. Below the navigation, there are buttons for 'New message' and 'Active chat'. The main content area shows a message thread with the following details:

- Subject:** Developer Community Release
- Members:** Konstantin Makarov, Anastasia Dyubaylo, Irina Podmazko, Alexey Kanashevskiy, Evgeny Shvarov

The first message is from **Anastasia Dyubaylo**, dated Dec 22, 2020 10:25 AM. The message content is partially visible, starting with "Hi all," and "I'm excited to announce that InterSystems will be joining the open source community for InterSystems ObjectScript extension to Visual Studio Code. Early this year I posted that we were on a journey to redefine the future of our IDE strategy, and what came out of that is Visual Studio Code is the IDE that can support that future. It's fast, stable, feature-rich, and built on a modern technology architecture that affords us the ability to offer you far more functional activities than ever before, pa... continuous development." A blue read receipt bubble indicates the message was read by Anastasia, Alexey, Irina, Anastasia, Evgeny, Alexey, Konstantin, and Jennifer.

The second message is from **Evgeny Shvarov**, dated Dec 26, 2020 10:25 AM. The message content starts with "Hi guys," and "In addition to deciding on VS Code as a platform, we've also made the significant decision to join the open source community."

The third message is from **Irina Podmazko**, dated Dec 26, 2020 12:25 AM. The message content starts with "Hello".

Você pode de maneira simples selecionar mensagens clicando no avatar do usuários para utilizar as novas funcionalidades no menu superior. Alterne entre as abas no menu suspenso.
