IRIS: Como configurar para o gerenciador de tarefas iniciar automaticamente ao reiniciar a instancia?

Olá.

Onde podemos configurar para o gerenciador de tarefas iniciar automaticamente ao reiniciar a instancia?

Ao reiniciar o IRIS, o gerenciado está vindo parado. Onde eu configuro para iniciar automaticamente como geralmente acontece?

Task Manager is currently not running [Start](#)

The following is a list of tasks scheduled for execution:

Task Name	Task Type	Namespace	Description	ID	Suspended	Last Finished	Next Scheduled
Switch Journal	System	%SYS	Switches the journal file at midnight every day	1		2021-10-30 00:00	2021-11-26 00:00
Purge Journal	System	%SYS	Purges old journal files every night at 12:30 am	2		2021-10-30 00:30	2021-11-26 00:30
Purge Tasks	System	%SYS	Purges the task history global every night at 1:00 am	3		2021-10-30 01:00	2021-11-26 01:00
Integrity Check	System	%SYS	Integrity check for databases at 2:00 am every Monday	4	Suspend Leave		2021-11-22 02:00
Security Scan	System	%SYS	Scans the security database at midnight every day	5		2021-10-30 00:00	2021-11-26 00:00
Diagnostic Report	System	%SYS	Send system diagnostic reports to WRC On Demand, and/or on a schedule	6			
Event Audit Database	System	%SYS	Purges old Audit information after Switch Journal is run	7		2021-10-30 00:01	Runs After #1
